Restrepo Consulting Group LLC Announces CAT Bus Origin and Destination Survey

(Las Vegas) – Restrepo Consulting Group (RCG) was retained by L.A. Mayo & Associates as part of the project team to conduct a Transit Data Initiative Origin / Destination Study on behalf of the Regional Transportation Commission of Southern Nevada. The survey will provide the RTC with data and data interpretations that will be used by RTC staff in developing plans for the future expansion and enhancement of Citizens Area Transit (“CAT”) service. These data will consist of demographic information as well as origin and destination statistics on current CAT riders and will enable the RTC staff to better understand the nature of CAT ridership in order to tailor plans to customer needs.

RCG is a regional economics, urban planning, and real estate consulting firm based in Las Vegas, Nevada. The firm provides its services throughout the U.S.
